HOLBROOK'S STEAM PRINTERY. 11 MECHANIC ST.

MAPS OF THE CITY, AT 11 MECHANIC-ST,

1873-74

PREFACE.

Our Citizens having been made acquainted with the various improvements in this City through the Daily Press, comments thereon would seem unnecessary in this Work. We can only congratulate them on its general prosperity and refer them to our Map of Newark (prepared with care) for the latest changes in the streets, additional territory, ward boundaries, etc., including East Newark, made during the past year. Newark, from its geographical position, and with its various Railroads, forms a connecting link with the Metropolis and the Great West and South. A glance at Newark and its surroundings will convince one of its almost unlimited future growth and expansion. While thanking the patrons of the DIRECTORY, it may not be amiss to give an extract from one of the first Directories published in this City, *thirty-three years ago*, suggestive of the difficulties then contended with :

"There are various kinds of customers to please, and endeavors have been made to please all and not be offensive to either. There are a great many who will no doubt be surprised to find their names in the Directory, as they directed them to be left out, and for what reason it cannot be devined, without it is to screen them from taxes, or a constable. But suppose all names, who order it, should be left out, what kind of Directory would it be ? To such the answer is, It is the business of the Directory to get names, and not leave them out."

So it is at the present day ; and we might add to the above reasons, family difficulties. There are many who positively refuse to give their names, not wishing them to appear before the Public, for reasons best known to themselves. We would call attention of those who may discover the omission of any names, to the above, and not unfrequently do persons, to cover this desire, give wrong information. Every endeavor is made to obtain reliable information, for the benefit of the community at large, as well as for the Work, and we cordially invite any information tending to that end. There would be less room for errors if all classes would deem themselves equally alike *responsible* and desire to be recorded aright, as the Directory office is centrally located and accessible.

In the *Appendix*, pp 825 to 920, will be found matters of interest connected with Newark, the Governments of the several surrounding Townships, pp 822, 877 ; the State, p 866 ; and Federal Courts, p 854 ; also New York matters, p 919.

The *Business Directory* is added as usual, p 921. The *Advertisements* are paged, exhibiting to the citizens and strangers the whereabouts and facilities of those in business.

A full and complete *Index* to various matters and branches of business in front part of the Work.

Holbrook's Map of Newark, similar to that accompanying this Work, may be found at the book stores, or at the *Directory Office*, No. 11 *Mechanic Street*.

CHARTERED 1811.

This Company has been in successful operation for upwards of sixty years. During that period it has enjoyed the entire confidence of the community, and has been favorably known for upright dealing, for speedy and honorable adjustment of losses and for moderate and equitable rates.

One prominent and widely known characteristic of this Company has been its large returns of scrip or dividends to those who favored it with their patronage. Starting originally as a mutual Company with the avowed object in view of each assuring the other against loss or damage by Fire, and hence having no subscribed Stockholders to reap all the profits, it has worked its way gradually to a fund of half a Million Dollars, and at the same time has reduced the cost of Insurance to the insured far below the amounts charged by other Companies. Its large and well invested fund now applicable for the payment of losses is a guarantee of perfect security to the Insured.

NOTICE OF DIVIDENDS.

This Company issues Mutual, Stock and Perpetual Policies at as low rates as the high standing of the Company will permit.

Post Money Orders, for sums not exceeding \$50 each order, can be obtained at the principal post-offices throughout the country. The use of these orders, by persons who desire to make remittances by mail, is far preferable to sending money, even when the letter containing it is registered. By the money order system, *absolute security* against loss is obtained. Money orders are good for one year from the date of issue. In case of their loss, no charge is made for the issue of duplicates. Persons sending money orders should be careful never to send them in a letter which contains the name of the person from whom they are sent. This is necessary in order to guard against loss in case the letter should fall into improper hands; money orders *never* being paid to any person who cannot tell the name of the party to whom they were issued.

As letters are frequently dropped in the letter boxes insufficiently paid, persons who are not certain in regard to weight, rates, etc., would do well to enquire of the Stamp Clerk before mailing them. If sent to the Dead Letter Offices they are delayed two or three mails.

1. On the breaking out of a fire, notice should be immediately communicated to the nearest alarm box, keys of which are always in the hands of the police and responsible persons in the vicinity of boxes.

2. Key holders, upon the discovery or positive information of a fire, will unlock box, pull down the slide or hook once, and let go quick. This gives the desired alarm all over the city, repeating itself five times.

3. All persons giving the fire alarm are requested to remain by the box a moment, and if no clicking is heard in the box, pull again; if you still hear no clicking, go to the next nearest box and give the alarm from that.

4. Never signal for a fire seen at a distance; never touch the hook except to give the alarm of fire; be sure the box is locked before leaving it; give an alarm for no cause other than an actual fire; do not give an alarm for a chimney.

5. Owners and occupants of buildings are requested to inform themselves of the location of signal boxes near their property; also where the keys are kept. Be sure the alarm is properly given; one single stroke of the house gongs is not given for an alarm of fire

6. Second alarm for the same fire can only be given by the Chief Engineer, or one of his assistants.

7. Alarms will be sounded upon the alarm bells thus: For Box Thirty two, three strokes—1—1—1, and a pause, then two strokes—1—1, a longer pause and repeating. Alarms for other numbers are given in a like manner.
